CAREER OBJECTIVE

Detail-oriented Computer Science graduate seeking a Data Analyst position, with practical experience in data extraction, validation, cleaning, and visualization, aiming to turn raw data into clear, actionable insights for organizational growth.

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Data Skills: Data Extraction, Cleaning & Transformation, Dashboard & Chart Creation

Web & Databases: HTML, CSS, JavaScript, Relational & Non-Relational Databases (MongoDB)

INTERNSHIP EXPERIENCE

Data Analyst Intern — Yhills

May 2023 – Sep 2023

- Extracted and integrated data from diverse sources, ensuring high data quality through thorough validation, cleaning, and transformation processes.
- Created insightful data visualizations, including interactive dashboards, charts, and graphs, to support data-driven decision-making.

Web Developer Intern — SkillHacc

Jan 2024 – Aug 2024

- Designed responsive web page layouts using HTML, CSS, and JavaScript to enhance user experience.
- Managed and maintained relational and non-relational databases, ensuring data integrity.

PROJECTS

Early Detection of Osteoporosis Using Machine Learning

- Analyzed bone density, demographic, and genetic-marker data to build machine learning models predicting osteoporosis risk.
- Benchmarked model performance against traditional diagnostic methods, improving identification of high-risk patients.

Smart Garbage Collector Based on Cloud and IoT

- Processed real-time sensor data transmitted to a cloud-based system to track bin status and predict waste patterns.
- Analyzed collection data to help optimize routes, reducing operational costs and improving efficiency.
