CAREER OBJECTIVE

Computer Science graduate with a solid foundation in Python and hands-on project experience in machine learning and data-driven applications, seeking a Python Developer role to build efficient, scalable, and impactful software solutions.

TECHNICAL SKILLS

Programming Languages: Python, C, C++

Web Technologies: HTML, CSS, JavaScript

Databases: Relational & Non-Relational (MongoDB)

Certifications: Cisco Python, Great Learning MongoDB

INTERNSHIP EXPERIENCE

Data Analyst Intern — Yhills

May 2023 – Sep 2023

- Used Python-based tools to extract, validate, clean, and transform data from diverse sources, ensuring high data quality.
- Built interactive dashboards, charts, and graphs to present analytical findings.

Web Developer Intern — SkillHacc

Jan 2024 – Aug 2024

- Developed and maintained scalable, reusable, and efficient code for web applications following modern software development practices.
- Managed relational and non-relational databases, ensuring data integrity.

PROJECTS

Early Detection of Osteoporosis Using Machine Learning

- Built Python-based machine learning models to predict osteoporosis risk from bone density, demographic, and genetic-marker data.
- Improved on traditional diagnostic methods, enabling more accurate identification of high-risk patients for timely treatment.

Smart Garbage Collector Based on Cloud and IoT

- Developed backend logic to process sensor data and integrate it with a cloud-based system for real-time bin monitoring.
- Supported route optimization and waste-pattern prediction, reducing operational costs.

EDUCATION

B.Tech, Computer Science & Engineering (CGPA 7.2) — Vignan Institute of Technology and Science

2021 – 2025

Intermediate (91.2%) — Narayana Junior College

2019 – 2021

SSC (CGPA 7.8) — Lotus Lap High School

2019

CERTIFICATIONS

- Python — Cisco
- AI Based ChatGPT — Pantech e-Learning
- MongoDB — Great Learning
- IT Essentials — Cisco
- JavaScript — Cisco
- Front-End Development — Udemy
